Introduction

Some people call them Angels, others call them guardian spirits, and still others use the name daimon, djinn, or demon (for a fallen Angel). Some Angels appear with wings; others have the form of a lion or other bird or beast. According to many sources, there are nine or ten orders of Angels. The most common are these: Seraphim, Cherubim, Thrones, Dominions, Virtues, Powers, Principalities, ArchAngels, and Angels. Some lists include Hosts. Angels are sometimes called Watchers and Holy Ones.

You may recognize a church hymn that begins:

*"Ye Watchers and ye Holy Ones,
Bright Seraphs, Cherubim and Thrones,
Sing their praises!
Alleluia!"*

Or these lines from Shakespeare's Hamlet:

*"Angels and ministers of grace defend us!" (Act I, scene 4)
"And flights of Angels sing thee to thy rest!" (Act V, scene 2)*

You don't have to practice any particular religion, or any religion at all, to establish a relationship with your guardian spirits. Calling upon Angels is as simple as this:

1. First you recognize that Angels exist.
2. Then you identify an Angelic spirit or energy for which you feel an affinity.
3. Then you praise that Angel, as you would praise the Lord, the Virgin, or any object of your prayers.
4. Only then do you ask for help.
5. Give thanks for whatever help comes.

6. Finally, watch for signs that your call has been answered.

While the Bible only names three Angels (Gabriel, Michael and Raphael), plenty of Angels are mentioned (the word Angel or its derivatives is used about 300 times in the Bible). Other sources list the names of hundreds of Angels, along with their natures and their responsibilities. Many holy books tell us that Angels are appointed to watch over us, and our literature and entertainment are filled with examples of Angelic presence.

This interpretation focuses on the Angels that are most prominent in your life. You will learn who they are, what they govern, what they can do for you, and how they work together. You will also learn ways to become more aware of them - ways to tune in to their protection and their messages. We each have at least one Angel or daimon who is always with us, who never deserts us, and who offers constant creative inspiration, if we only will listen. Today you can learn more about how to listen to your unique set of Angelic guides.

As you read this interpretation, you will again and again find indications of specific ways to call upon Angels quickly and safely through prayer and meditation. I have called these activities meditations, but I personally also see these as prayers and I have included affirmations - short positive statements of personal intention - for your use. As you practice working with your Angels, you will become adept at contacting them in an instant when you most need their support and help. Since they are always around you, calling Angels is never a difficult accomplishment. However, you may not have any experience at calling Angels! Now, as you read and gain some understanding through this report, you can tune in directly to specific Angels for specific aid.

The hallmarks of true Angelic presence are these:

1. The messages are always loving, positive and clear.
2. Angelic messages and support leave you feeling confident, and certain.
3. Angels are not summoned, they are sent. Yet through visualization and meditation, you can become aware of their eternal dwelling in and around you.

In keeping with the qualities of Angels, I encourage you to listen to your Angels. Call upon them for guidance, but do not intentionally summon them. Instead, allow them to enter your presence by meditating on an Angelic image, wrapping yourself in the feeling of well-being and safety that you have experienced in the past, and patiently allowing yourself to fill with Angelic peace.

Angels of the Cardinal Directions

The Angels of the directions may show up in your interpretation later in this report. If they do, by reading this section you will be able to recognize their power. If not, you can refer to this report and consider these four possibilities in your life when you travel in their direction, when you are planning a garden, or when you walk outdoors.

East - Michael

The American Indians associate the eagle with the East Wind. The eagle has remarkable vision and can see things in perspective, as well as identify tiny objects on the ground far below. The East is related to the human kingdom, and the eastern wind brings spiritual considerations into your mind. It is in your nature to determine what you do with any gift, any task, or any burden you have been given. The Angel of the East can help you seek the higher spiritual meanings of everything you experience.

Through meditation, you can cultivate choices in any situation. In meditation, allow your mind to seek three possibilities. Some of the choices may seem weak or unacceptable to you, but they are still choices. Initially you may have simply said no to such an option. Some of the choices may seem strong for one reason or another. Michael can help you determine which choice is the best for you to follow. Occasionally you will find that your meditation leads you back to the choice you initially refused. What seemed unacceptable at first sometimes turns out to be the best path after all.

If you feel drawn to the Angel Michael, you may want to incorporate an early morning ritual into your daily life. Stand with your face to the sun to gather in energy for your day's activities. This is effective even before the sun rises.

North - Uriel

The buffalo is the animal the American Indians associated with the North Wind. Buffalo medicine was among the most power resources the Indians had, just as the buffalo was

their primary source of food, warmth, and everything they needed. The North, then, is associated with material sustenance. The power of the North lies in receiving that which we need. To cultivate the capacity to receive, we need to cultivate the mind.

Through meditation, you can cultivate your mind by developing flexible mental boundaries. The mind can take you wherever you wish to go. Through meditation, you can learn to identify the meaning behind simple facts, and the application of the principles of love to each fact you discover. In addition, the North is associated with the quiet, even dormant quality of mind. You may also develop some skill in allowing your mind to rest quietly, so that insight may arise.

If you feel drawn to the Angel Uriel, you may want to incorporate prayers or acts of thanksgiving into your daily life. By recognizing the bounty in your life, you also enhance it.

West - Gabriel

The American Indians associated the grizzly bear with the West Wind. This strongest of all bears represents Gabriel, a very powerful Angel. The power of the west lies in teaching you about self-sufficiency. The power of the grizzly is to teach patience. This animal seldom hurries for anything.

The West relates to the mineral kingdom. Through your meditation, you may learn the value of certain gems and minerals to heal mental or physical ills. Each gem has existed long before you thought of embarking on your present physical existence. According to Kenneth Meadows in Earth Medicine, the senses can be developed through the use of peridot (vision), onyx (hearing), carnelian (touch), topaz (taste), and jasper (smell).

If you feel drawn to the Angel Gabriel, you may want to end each day with a few minutes of meditation in which you consider the activities of the day, and seek guidance through dreams.

South - Raphael

The animal the American Indians associated with the South Wind was the mouse. This tiny creature has profound wisdom all its own. The mouse perceives the world on a very small scale. This animal reflects your capacity to relate to things and people by getting closer to them - close enough to touch. Often we engage emotional feelings when we are close enough to physically touch another person.

Raphael can aid you in your meditation by bringing you more in touch with your own body, and with your immediate surroundings. The South Wind emphasizes self-awareness as a foundation for giving to others. Out of self-awareness comes compassion for others. As you cultivate self-awareness, you also begin to trust the

Universe to provide whatever you need to become that compassionate being you glimpse in your meditation.

If you feel drawn to the Angel Raphael, you may want to incorporate an activity into your daily life that you do just for yourself. For example, daily bathing offers a private time to allow healing energy to wash over your body.

Your Most Powerful Angelic Connections*Neptune*

The planet Neptune, by its sign, house placement, and aspects, reveals the Angels that most strongly support and influence your life. You always have Angels around you, and you may have identified specific Angels from time to time throughout your life. Some of the Angels mentioned in this report have familiar names, some have unfamiliar names, and there are many Angels without names. You may find that the familiar Angels seem to have more power. This is because they have been invoked many times by many people, and therefore they have more apparent power. Your personal Angels, even if they have no names, are powerful to you, and they help you focus your individual energy more effectively.

Neptune is in Libra

With Neptune in Libra, you are part of an entire generation of people who share in the influence of the Angel Uriel.

Uriel is thought to be the Angel of death that fetched the soul of Moses. Uriel was also a likely source of Moses' knowledge. His name appears on Gnostic amulets. As his name, 'God is my light,' suggests, Uriel is often shown with the flame of the Holy Spirit in his right hand, amply indicating the sheer power of his capabilities.

Although sources differ, the power of this Angel is often associated with the red healing energy of the root chakra, and with the tourmaline gem.

Sometimes called the Angel of punishment, Uriel actually seeks to establish or re-establish balance. To create balance in your life, call upon Uriel, who will save you from destructive thoughts of guilt or revenge. To help in this way, Uriel must understand both sides of any question, and can aid you in gaining this kind of understanding for yourself.

Meditation for Uriel

Meditation requires focus and practice in order to become familiar and easy to do. Yet it requires nothing that you do not already have in the way of clothing, equipment, or mental faculties.

1. Wear loose clothing that will keep you warm or cool, depending on the season and conditions.
2. Sit cross legged on the floor or on a cushion. If this is too uncomfortable, you can sit in a straight-backed chair. Keep your back erect.
3. Place your hands on your thighs so that your upper arms are vertical and the position feels relaxed. You can adjust your hand position as needed.
4. Direct your gaze straight ahead into the distance. You will notice that you are aware of your peripheral vision too.
5. Breathe in and out slowly. Follow your breath as it goes out, and feel it as you inhale. Allow yourself to notice any sensations in your body, and any sounds in your environment. Do this for a minute or two.
6. Then, as you breathe in and out, notice what you see.
7. Don't focus on each thing you see, but instead maintain your gaze into the distance. Yet become aware of all that you see.
8. Notice how your mind wanders from one thing to another. The floor covering, the color of the walls, the elements of nature if you are outdoors.
9. Continue for a comfortable period of time.

This meditation often helps to stimulate insight. Most of us don't take the time to simply be in the space we occupy, and this meditation allows you to do just that. You voluntarily choose to concentrate your attention in a specific way, although there is no specific goal to attain. All of your past, including past lives, comes together to form the fulcrum of a balance. The other side of the balance is your entire future. As you practice this meditation, you gain insight concerning possibilities for the future. Pay attention to the details of any thoughts that arise, whether they be about the past, the present, or the future that is opening to you now.

Neptune is in the 3rd Decanate of Libra

Lupus - Karma

Lupus the Wolf is the constellation of the third decanate of Libra. Little Red Riding

Hood's wolf had to pay for exploiting his situation. With a planet in the third decanate of Libra, you must choose between greedy manipulation of the environment and sympathetic consideration of the needs of others. Balance requires cooperative effort. As the wolf cooperates with the pack for good and protection, so you cooperate with the Angelic energies that nurture your heart and mind.

Affirmation

I pursue my spiritual path while caring for my material needs and desires.

Neptune is in the 10th House

With Neptune in the Tenth House, your Angelic focus is on contemplation of the supernatural. You relish opportunities to connect with the magic and wonder of your environment and the Universe. In fact, it is through this kind of activity that you can flourish in your career or life's mission.

Your capacity for meditation provides a way for you to dig deeply into spiritual or other problems. By calming your mind and body, you are better able to open to the extraordinary power of your Angels. You, more than most people, benefit from regular meditation.

A weakness, if there is one, is the potential for lying or illegal activities. You are driven to achieve highly idealized goals, and you could succumb to the temptation to use nefarious means to achieve them. Although such methods might seem to work for a while, you will soon find that you have caused more trouble than you bargained for. Your Angels help you to stay on the path of personal integrity, and to avoid the problems that come with illegal activities.

As you cultivate Angelic presence, you may achieve strange objectives almost miraculously. You have the imagination to come up with many creative solutions to the problems you encounter, and your Angels steer you toward the best solutions.

The possibility for you to develop psychic and intuitive skills is great. You have a keen interest in the mystical side of religion and could make a study of the mystical practices of several religions. You may study Masonic ritual, esoteric disciplines, or martial arts like Aikido that incorporate meditation and healing in their disciplines.

The artist Leonardo da Vinci and esotericist Alice A Bailey had Neptune in the Tenth House.

Angels in Your Daily Life*The Ascendant*

The Ascendant in your chart is the sign rising in the East at the time of your birth. As such it also reflects the way your personality rises new and refreshed to greet each day. The Angel of the Ascendant also rises each day to assist you in renewing your personality and your personal resolve.

The Ascendant is in Sagittarius

With the Ascendant in Sagittarius, you gain strength from the Angel Adnacheil who empowers with love. The quality that shines forth freely in your personality is enthusiasm. Except for isolated times in your life, you generally relish the possibility of expanding your intellectual horizons and covering a lot of territory in your travels.

You value knowledge, adventure, and truth above material wealth, yet you can create or accumulate beautiful things. You can usually make your money go farther than the average person, perhaps because you buy for quality and expect things to last.

You probably enjoy a variety of sports, either as a participant or spectator. Optimism and honesty combine to make you a welcome team member at work or at play.

Disappointments hit you very hard. While you are capable of changing your mind, you don't do so easily. Thus you need a long time to nurse wounds from faithless associates, and in the interim you may seem rather self-righteous.

You chide yourself severely if you ever promise more than you can deliver. In this you uphold your beliefs in that you don't expect something from other people that you cannot deliver yourself. Your Angels help you to be more generous with yourself, and with others.

Meditation on the Fire Element

In the Book of Daniel (3:28), we learn that the Angel of the Lord was in the furnace with Shadrach, Meshach, and Abed-nego when Nebuchadnezzar punished them after they refused to sacrifice to the pagan deity. After the Angel saved them, Nebuchadnezzar was visited with dreams and visions concerning the future.

The Angel of Fire also rules over hidden things. This Angel delivers information in the form of intuition. You can enter into the fire in your meditation to gain knowledge that can later be tested by asking questions and gathering factual information. To do this, place a candle on your altar or on a table in front of you so you can look at the flame without straining your eyes. The flickering flame provides physical movement and encourages mental, emotional, and spiritual movement to match. When all else is still, the movement of the flame allows for movement within your mind. In the gaps between ordinary thoughts, intuition arises.

The Midheaven

The Midheaven in your chart is associated with an Angel who helps you understand yourself, and who is activated at specific times to bring the necessary understanding at moments of great transition or transformation.

The Midheaven is in Libra

Libra Midheaven -- Suriel

With the Midheaven in Libra, you establish yourself in the world with the aid of the Angel Suriel who alleviates destructive desires. Being a logical person, you know that you have no good reason to act in an unpleasant manner. At the same time, you may not have any good reason for total sincerity either. After all, complete sincerity will surely lead to unpleasantness, at least part of the time. Thus you adopt a strategic balance between these two important qualities.

You have a similar mind set when it comes to cooperation and exploitation. You are willing to cooperate, at least when it suits your purpose. You are also willing to exploit the benefits that the Universe puts in your path. The resulting behavior incorporates as much cooperation as it takes to get what you want. When your method fails, you can become indecisive, impatient, and unwilling to support your team members. This is when you benefit from Angelic presence.

How do you personally perceive signs that your prayers have been answered, or that your Angels have heard you? When you feel yourself coming into equilibrium, you know you are on the right track. You may find that Angels and Angelic images work themselves into your work in some way.

You are not comfortable in extreme conditions and you pull back from them, knowing

that you can restore secure footing and continue on a more congenial path. You can use meditation to help you find and maintain your balance point.

Another key to Angelic presence is your ability to reach out to others without losing your own position. You find that as your Angels guide you, you respond easily and freely to a variety of situations. You draw on information from many sources to help solve problems, and you can integrate massive amounts of information very quickly. You learn to recognize your path for its qualities of equanimity and integrity. The combination of the Libra Midheaven and the Angelic energies of Suriel is indicative of a career in the arts, or in leadership positions like the military where coordination of material and personnel is essential to success.

Meditation for The Midheaven

1. Sit or kneel in a comfortable posture, back erect.
2. Begin by breathing in and out, settling into your posture and gazing slightly downward.
3. As you breathe, allow awareness of equilibrium to fill your mind.
4. Develop a rich, vibrant feeling of what balance looks like, feels like, and sounds like. Consider all your senses as you build awareness.
5. As you do this meditation, notice how your attitude toward equilibrium may shift or become even more defined.
6. Do this meditation for a few minutes.
7. When you are finished, write about your impressions for future reference.

The Midheaven is in the 2nd Decanate of Libra

You love to hang out in the middle space between opposite extremes. When you are caught at one end or the other, your Angels help you accept your experience and develop compassion for yourself or others who share it.

Neptune is the Ruler of the 3rd House

As you cultivate your personal Angels, you discover that you value versatility in your life. You love to go anywhere, do anything, and think whatever you feel like thinking. This trait has become a medium for exchanging thoughts and feelings with the widest possible range of people, and it allows you to learn about new subjects with ease, as well as helping others with our experience. Your manners are generally impeccable.

The problem, if there is one, is that you become bored. You may invest so heavily in finding new experiences that you fail to appropriately cultivate the relationships you

already have. You may appear superficial when your efforts only skim the surface and fail to dig deeper for more profound meaning. Your Angels come to your aid with little nudges to guide your thought to the next level of complexity. Once you discover that such levels exist, you open up every experience you ever had to closer scrutiny, and you enrich your life in manifold ways.

Pisces is a water sign. Your meditation can be aided by placing one or more containers of water around you. Often you can relax your mind while bathing, as the movement of water helps to create movement of ideas in your body and mind. The watery movement, combined with chanting, reading, or simply thinking about a mantra, can help you to calm your thoughts and view things in a different light. You may see through apparent reality to a subtler level of truth in this way.

The Sun

The Sun is the center of our solar system, and symbolizes the spiritual center of your being. It reflects your individuality as you express it in this lifetime, and it also expresses your spiritual potential for this lifetime. The Angel closely associated with your Sun sign can help you to be the best, happiest person possible.

The Sun is in Aquarius

With the Sun in Aquarius, you gain strength from the Angel Gabriel who helps you see and speak the truth. The keynote for your Sun sign is the interface between personal and the humanitarian urges. Your strong desire for knowledge drives you to explore the world of people and ideas, and you can seem quite selfish in your many pursuits. By the same token, your capacity for service to humanity gets its inspiration from the very same roots.

Gabriel, the Angelic messenger, is constantly informing your insight through intuition, and also through opportunities to engage in the world. You gain awareness of your Self as you go through each experience, and you acquire sensitivity to more universal human themes.

Tzadqiel, the Angel of Mercy as well as Memory, provides the strength you need to pursue big ideas and to attempt to change the social system you live in. Angelic presence aids you in the daily rituals of meeting people, entering into negotiations, and every other human activity.

Interacting With Angels

While you are going about your daily activities, the Angels around you are interacting according to your unique personality, desires, and needs. Imagine that you are on stage, acting out your role in life. Behind the scenes your personal Angels are arranging what you need, discussing how you feel, and possibly even debating the best way to help you. You don't have to worry about their actions because they continue to act in your best interests even when you are unaware. The following aspects indicate how your personal Angels work for you throughout your life. If you have no aspects to Neptune, that circumstance is also discussed. As you work with your Angels, you will become more and more aware of these themes and what they mean for you.

Mercury is Trine Neptune

With Mercury Trine Neptune, you experience the result of gentle, yet powerful confluence between Michael and Tamiel. When the energies of the Angel of warrior spirit and the Angel of Primordial Energies meet, you can expect lots of action! On the one hand, you have the full power of the confessor, and on the other you have the power of punishment. Sounds grim! However, these two Angels are all about showing you the path of personal integrity. They don't just suggest it, they reveal the path of integrity in pictures, words, feelings, and spiritual inspiration.

Naturally, you have a fabulous imagination. You perceive the past, present, and future as a seamless, integrated whole. You can write powerful drama, fiction, or poetry. Your capacity for artistic expression in music, painting, or sculpting can develop if that is where your interests lie. In focusing on Michael and Tamiel, you find you can imbue all your activities with sparkle and glamour that act like magnets for the imaginations of the people around you.

You have skill in communication about feelings and needs reveals itself in your persona. You can counsel others through peer counseling, training in psychology or psychiatry, religious vocation, or spiritual channels. Your intuitive capacity grows as you focus on

the Angelic energies available to you.

You sometimes experience poor judgment when you don't think things through carefully. This is an area where meditation allows you direct access to the support of your Angels. Yoga is another good way to coordinate mind and body so that your thoughts are clear and powerful.

As you work with Angelic presence, you find that any former tendency toward wrong thinking is replaced by thoughts of compassion. No longer ruminating on supposed wrongs from others, you find yourself experiencing the spiritual power within them. Then you choose Right Speech to encourage them to express that power more clearly.

Uranus is Square Neptune

With Uranus Square Neptune, you experience a dynamic, challenging interaction between Zadkiel and Tamiel. Zadkiel is the Angel of Death, and Tamiel of Dreams. Together they extend your understanding of the nature of life and its limits. They also reveal the many ways you can change your life through skillful action.

You have a natural love of ritual. You find, when you think about it, that ritual pervades everything you do. You get along with other people very well because you observe the steps of ritual, entering into each conversation, activity, or association according to socially or culturally defined rules, and in so doing you put other people at ease without undo fuss or bother.

You can develop subconscious talents through conscious expression. In concert with your Angels, you express little pieces of your subconscious awareness in conversation or action. As you do this, you affirm your less conscious abilities and honor them and your Angels. Then your mind is better able to provide ideas and understand feelings in order to aid your work.

Inspired idealism may not be what you think you have been looking for, but you are certain to find it eventually. Your Angels send you dreams and ideas all the time, and you have only to pay attention to them. Your idealism provides a foundation for you to help others who experience major disasters or transformations in their lives. When you or others experience loss, your Angels are ready and willing to lift you up.

A potential weakness is the lack of stamina. Physical exercise to build lung capacity and muscle strength is well worth the effort. The physical strength you gain provides a foundation for emotional and spiritual strength.

For mental strength, meditation or yoga provide an organized practice. Kundalini yoga provides a medium for mental focus as well as physical exercise, building all the structures you need to support your developing psychic awareness.

Another possible weakness of structure could lead to high blood pressure and its associated ailments. The above mentioned exercise, meditation, and yoga all serve to reduce blood pressure and strengthen the system so as to avoid dangers of stroke and heart ailments.

Heightened psychic states including clairvoyance are the norm for this combination.

Pluto is Sextile Neptune

With Pluto Sextile Neptune, your life is enriched with opportunities presented by the Angels Metatron and Tamiel. Metatron has been called the King of Angels and the Chief of the Ministering Angels. This Angel is thought to be the pillar of fire the Jews followed in their exodus from Egypt. He is a certain link between you and the divine. Metatron's association with Tamiel, the Angel of Primordial Energies, is extremely powerful.

You undoubtedly experience supernatural events and conditions during your life. Your Angels provide this resource and can help you refine it. Psychic impressions and intuition become second nature to you after a while. You learn to act on intuition in much the same way you would act on advice from your accountant.

One facet of the path of personal integrity for you involves purification of your soul. This means elevating your thoughts above petty jealousy and anger. While you may never overcome negative thinking entirely, working with your Angels will lift you up, step by step, to thoughts of compassion and love. Love overcomes fear and compassion overcomes hatred.

One possible expression of this aspect of your birth chart is that you have at least one extrasensory ability. At first you may experience some confusion in interpreting psychic and intuitive information as it comes to you. You are likely to overcome this confusion once you develop the necessary comprehension of your abilities and thus develop your psychic skills. Meditation each day allows your Angels to contact you more directly to help in this area.

You have the power of a storyteller combined with the wisdom of a seer. You could write fiction or dramatic scripts, and your poetry can become the liquid fire of inspiration and soothing balm for the soul.

Mars is Semisextile Neptune

With Mars Semisextile Neptune, difficult moments of growth take on more creative meaning because of Samael and Tamiel. Samael is the Angel of Temptation. The gift in this Angelic energy is the power to market yourself and your ideas to others. Tamiel is the Angel of Dreams. Here you find the words and images, the touch and smell that entice others to buy or buy into your schemes.

Spirituality provides a regulator for your feelings and passions. While you definitely

want to be successful, the aim is to do so without causing harm to anyone else. Therefore your Angels help you to be persuasive only after finding out what the other person wants or needs.

Sometimes you feel the urge to express yourself in a particular artistic medium. Although you may not sustain this interest long enough to develop expertise, your artistic efforts are deeply satisfying to you and they may grace your home or office, or the homes of family members. If you continue to produce works of art, you may gain a following.

A weakness is the tendency to consider harming others. You may have destructive thoughts, but you never need to act on them. Your Angels help you to channel your energies toward compassion instead of harm.

Another weakness is susceptibility to drugs and alcohol. Here again your meditations with the Angels help you to avoid unnecessary drug use, and to moderate use when drugs are prescribed.

A great strength is your inspired ability to plan grand ventures and then to see them through to completion. Any feelings of inferiority dissipate when you are fully engaged in a project. You magnetically attract just the right people to help you get things under way and approach your goals with few side trips or distractions.

The extent of your compassion is unlimited. As you deepen your awareness of Angelic presence, compassion flows from you to all living things, including the planet itself.

Chiron is Square Neptune

Because there are hosts of Angels directly involved with healing, assigning one Angel to Chiron is no simple task. In fact, the influence of Chiron in healing is similar to that of the Angelic hosts. This planet is a catalyst for healing energies within you, much as the Angelic hosts provide an atmosphere of healing within which you can work. However, the energy of Sariel resonates strongly with Chiron.

With Chiron square Neptune, you experience healing in a more stressful way than most people. Your nervousness and confusion, when converted to active channeling of healing energy, reflect the powerful communion between Sariel and Tamiel. When an Angel of healing meets the Angel of primordial energy, the potential for positive change is ignited within you. Your capacity to cleanse your body and mind of all impediments to health is greatly strengthened by this powerful duo.

Your capacity to heal reflects the partnership you can develop with your Angels. Two factors are important to note:

There is duality in everything. Any illness, discomfort, or mental aberration reflects one

side of a polarity. On the other side you can find health, sanity, and satisfaction. Love casts out fear, for example. Pain can instill compassion. Emotional healing occurs when you go through suffering instead of denying it. Angelic greetings traditionally have included the words, 'Fear not,' because the removal of fear from your consciousness creates suitable conditions for healing.

Physiology mirrors consciousness. As you learn the subtle connections between your belief, thoughts, and feelings and the physical body, you begin to see how positive, optimistic, creative thoughts produce healthy feelings, while negative, destructive, pessimistic thoughts create feelings of illness. You retain your free will, but your Angels create a condition in which you can more readily choose the enlightened path toward greater wellness.

Meditation is essential for you to reduce your own physical and emotional stress levels. As you accomplish this task, you gain a sense of space in which your healing can occur easily. Your Angels provide a bridge from your current state to one of greater intuitive understanding of wellness in your life.

Neptune is Square The North Node

With Neptune square the North Node, you experience the challenges of life with the support of Tamiel and the entire heavenly host. You are inclined to think that anything is possible when this aspect is active in your life, perhaps because so many Angelic energies contribute to your lively imagination.

A weakness is the lack of flexibility in dealings with other people, possibly due to your confusion about what they want or how you fit into their plans. Another possible problem concerns dreams that disturb your peaceful sleep.

If you have difficulty establishing good contacts with other people, call upon Tamiel and the heavenly hosts for comfort and support. They can stimulate imaginative ways of getting your ideas across to others.

On the up side, you can develop your psychic sensitivity so that you know what is coming in the next moment or the near future. This way you feel better prepared and can appear more adaptable, even if you still feel a bit foggy about the details.

With a host of Angels behind you to bolster your courage, you find that engaging with others in social activities becomes easier.

Neptune is Conjunct The Midheaven

With Neptune forming a conjunction to the Midheaven, you experience a relative lack of ego-consciousness. You also have a natural doorway to greater mystical and intuitive understanding that is not based upon ego, but rather upon transcendent awareness that comes from a more spiritual center within you.

When the world showers you with glamour and other people try to convince you of realities that don't mesh with your own perceptions, your Angels can help you to express compassion for others while also understanding your own motivations.

On the plus side, Tamiel supports your receptivity, empathy and sensitivity. Awareness of Mind is enhanced through Angelic associations, and your contemplative nature expands as you explore your own ego. This may sound odd, as many spiritual belief systems indicate that ego is to be avoided or quelled. However, if you go through ego issues instead of around them, you are better able to resolve them.

Tamiel also supports you by revealing your greatest mental and emotional weaknesses so that you may resolve them. For example, you may be susceptible to deception, either from others or through yourself. Your Angels help you to perceive deception and to dispel it.

You have a powerful imagination that can be utilized in the search for self-awareness and spiritual consciousness, and your Angels are there to help you.

Neptune is Sextile The Ascendant

With Neptune forming a sextile to your Ascendant, you naturally benefit from Tamiel and your other Angels. You are provided with opportunities throughout your life to build a working relationship with angelic presence and awareness. You are susceptible to influence from the environment and other people, and you benefit from meditation and affirmations that your Angels are always with you. As you practice contacting your Angels, you find that you can identify and choose the most promising opportunities quickly and easily, and thus benefit from them more fully.

You have a natural capacity to channel or to use other psychic skills. If you open yourself to any and all energies, you may feel drained or even assaulted by negativity. Instead, you can enlist the help of your Angels to develop suitable 'shields,' so that positive influences come into your sphere easily, while destructive energies are rebuffed before they can affect your emotions or physical body.

Your imagination can be used for storytelling, music, or creative arts of all kinds. Your talent flows from a deep well of spiritual energy, and your Angels aid you by keeping the flow steady and constant. Even when you cannot come up with a good idea, your Angels are at work building the next idea for you.

Your devotion to other people is noteworthy. As you develop your own protection, you find that you can extend yourself to others by choice, and you discover your energy is virtually limitless.
